Subject: drafting instructions for technical changes re: Wayfair decision

Hi Joe,

I left you a voice message about this. Will you please help me determine to whom I should direct this drafting request? Thank you! Sandy

Drafting instructions to clarify the previous language relating to taxing of internet sales:

- Clarify that the Supreme Court decision that resulted in taxing of on-line sales does trigger the previous language (citing a change in federal law) and the revenue collected should be used to lower income taxes in proportion to income taxes collected.
- The lower income tax rates would be published by the Department of Administration and would be based on the actual online sales taxes collected for the period October 1, 2018 through October 1, 2019. The Department of Administration would make the new effective rates applicable to the tax year ending December 31, 2019. The Department of Administration must submit the calculation and new rates to the Joint Finance Committee by October 20, 2019 and the Legislative Audit Bureau shall audit the calculation and report to the Committee on Audit by November 15, 2019. In the event the Legislative Audit Bureau has developed a different calculation the Joint Finance Committee shall decide which calculation shall be applied to lower the rates.
- Clarify that the rates are lowered in proportion to income taxes collected in the previous calendar year. Only the rates (brackets) are adjusted as it pertains to this calculation.

- 1 AN ACT ...; relating to: determining a reduction in individual income tax rates
2 based on the basis of the collection of sales and use taxes from out-of-state retailers.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Revenue must determine the amount of additional revenue collected from the state sales and use tax as a result of any federal law that expands the state's authority to collect sales and use taxes from out-of-state retailers. After DOR makes that determination, it must then determine how much the individual income tax rates may be reduced in the following taxable year in order to decrease individual income tax revenue by the amount of additional sales and use tax revenue. Finally, DOR must certify its determinations to the secretary of the Department of Administration, to the governor, and to the legislature and specify that the new individual income tax rates will take effect in the following year. No further legislation is required to make this change.

The U.S. Supreme Court recently upheld a South Dakota law that required the collection of state sales and use taxes from any out-of-state seller that either conducts 200 or more transactions annually with consumers in the state or has annual sales in the state exceeding \$100,000. See, *South Dakota v. Wayfair, Inc.*, 585 U.S. ____ (2018). The *Wayfair* decision overturned longstanding precedent that prevented a state from collecting sales and use tax from out-of-state sellers that did not have a physical presence in the state. See, *Quill Corp. v. North Dakota*, 504 U.S. 298 (1992).

This bill clarifies that the recent U.S. Supreme Court decision that expands a state's authority to collect sales and use taxes from out-of-state retailers triggers the

Committee

determinations mentioned above. The bill also provides that the new individual income tax rates based on the determinations would not take effect automatically in the year following DOR's certification, but, instead, the Department of Administration, in consultation with DOR, would determine the new tax rates to take effect for the taxable year ending on December 31, 2019, and report its determinations to the governor, the Joint Committee on Finance, and the Legislative Audit Bureau. LAB would then review the determinations and report its findings to JCF and the Joint Legislative Audit Bureau. If LAB's review results in a re-determination of the rates, JCF would determine which rates apply to the taxable year ending on December 31, 2019, and report its determination to DOA and DOR.

Under current law, the Department of Revenue must determine the amount of additional revenue collected from the state sales and use tax as a result of any federal law that expands the state's authority to collect sales and use taxes from out-of-state retailers. After DOR makes that determination, it must then determine how much the individual income tax rates may be reduced in the following taxable year in order to decrease individual income tax revenue by the amount of additional sales and use tax revenue. Finally, DOR must certify its determinations to the secretary of administration, to the governor, and to the legislature and specify that the new individual income tax rates will take effect in the following year. No further legislation is required to make this change.

The U.S. Supreme Court recently upheld a South Dakota law that required the collection of state sales and use taxes from any out-of-state seller that either conducts 200 or more transactions annually with consumers in the state or has annual sales in the state exceeding \$100,000. One small suggestion:

77.51

Page 4, Lines 15, 20, and 21:

Change this phrase: "tax imposed under s. 77.52 or 77.53" To this phrase: "taxes administered under s. 77.52 or 77.53"

The reason is because other sales taxes (e.g., county, stadium, premier resort) are not imposed under s. 77.52 or 77.53 – they are administered under the provisions of the general state sales and use tax in ss. 77.52 and 77.53.

2 and 77.51 (13gm) of the statutes; **relating to:** determining a reduction in
3 individual income tax rates on the basis of the collection of sales and use taxes
4 from out-of-state retailers.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Revenue must determine the amount of additional revenue collected from the state sales and use tax as a result of any federal law that expands the state's authority to collect sales and use taxes from out-of-state retailers. After DOR makes that determination, it must then determine how much the individual income tax rates may be reduced in the following taxable year in order to decrease individual income tax revenue by the amount of additional sales and use tax revenue. Finally, DOR must certify its determinations to the secretary of administration, to the governor, and to the legislature and specify that the new individual income tax rates will take effect in the following year. No further legislation is required to make this change.

The U.S. Supreme Court recently upheld a South Dakota law that required the collection of state sales and use taxes from any out-of-state seller that either conducts 200 or more transactions annually with consumers in the state or has annual sales in the state exceeding \$100,000. See, *South Dakota v. Wayfair, Inc.*, 585 U.S. ____ (2018). The *Wayfair* decision overturned longstanding precedent that prevented a state from collecting sales and use tax from out-of-state sellers that did not have a physical presence in the state. See, *Quill Corp. v. North Dakota*, 504 U.S. 298 (1992).

This bill clarifies that the recent U.S. Supreme Court decision that expands a state's authority to collect sales and use taxes from out-of-state retailers triggers the determinations mentioned above. The bill also provides that the new individual income tax rates based on the determinations would not take effect automatically in the year following DOR's certification, but, instead, the Department of Administration, in consultation with DOR, would determine the new tax rates to take effect for the taxable year ending on December 31, 2019, and report its determinations to the governor, the Joint Committee on Finance, and the Legislative Audit Bureau. LAB would then review the determinations and report its findings to JCF and the Joint Legislative Audit Committee. If LAB's review results in a re-determination of the rates, JCF would determine which rates apply to the taxable year ending on December 31, 2019, and report its determination to the governor, the secretary of administration, and the secretary of revenue. Finally, the bill includes in the definition of a "retailer engaged in business in this state" any retailer that has annual gross sales into this state in excess of \$100,000 or an annual number of separate sales transactions into this state of 200 or more.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

Under current law, the Department of Revenue must determine the amount of additional revenue collected from the state sales and use tax as a result of any federal law that expands the state's authority to collect sales and use taxes from out-of-state retailers. After DOR makes that determination, it must then determine how much the individual income tax rates may be reduced in the following taxable year in order to decrease individual income tax revenue by the amount of additional sales and use tax revenue. Finally, DOR must certify its determinations to the secretary of administration, to the governor, and to the legislature and specify that the new individual income tax rates will take effect in the following year. No further legislation is required to make this change.

The U.S. Supreme Court recently upheld a South Dakota law that required the collection of state sales and use taxes from any out-of-state seller that either conducts 200 or more transactions annually with consumers in the state or has annual sales in the state exceeding \$100,000. See, *South Dakota v. Wayfair, Inc.*, 585 U.S. ____ (2018). Finally, the bill includes in the definition of a "retailer engaged in business in this state" any retailer that has annual gross sales into this state in excess of \$100,000 or an annual number of separate sales transactions into this state of 200 or more.

PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION

- 1 **AN ACT to amend** 73.03 (71) and 77.51 (13g) (intro.); and **to create** 73.03 (71) (d)
2 and 77.51 (13gm) of the statutes; **relating to:** determining a reduction in
3 individual income tax rates on the basis of the collection of sales and use taxes
4 from out-of-state retailers.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Revenue must determine the amount of additional revenue collected from the state sales and use tax as a result of any federal law that expands the state's authority to collect sales and use taxes from out-of-state retailers. After DOR makes that determination, it must then determine how much the individual income tax rates may be reduced in the following taxable year in order to decrease individual income tax revenue by the amount of additional sales and use tax revenue. Finally, DOR must certify its determinations to the secretary of administration, to the governor, and to the legislature and specify that the new individual income tax rates will take effect in the following year. No further legislation is required to make this change.

The U.S. Supreme Court recently upheld a South Dakota law that required the collection of state sales and use taxes from any out-of-state seller that either conducts 200 or more transactions annually with consumers in the state or has annual sales in the state exceeding \$100,000. See, *South Dakota v. Wayfair, Inc.*, 585 U.S. ____ (2018). The *Wayfair* decision overturned longstanding precedent that prevented a state from collecting sales and use tax from out-of-state sellers that did not have a physical presence in the state. See, *Quill Corp. v. North Dakota*, 504 U.S. 298 (1992).

This bill clarifies that the recent U.S. Supreme Court decision that expands a state's authority to collect sales and use taxes from out-of-state retailers triggers the determinations mentioned above. The bill also provides that the new individual income tax rates based on the determinations would not take effect automatically in the year following DOR's certification, but, instead, the Department of Administration, in consultation with DOR, would determine the new tax rates to take effect for the taxable year ending on December 31, 2019, and report its determinations to the governor, the Joint Committee on Finance, and the Legislative Audit Bureau. LAB would then review the determinations and report its findings to JCF and the Joint Legislative Audit Committee. If LAB's review results in a re-determination of the rates, JCF would determine which rates apply to the taxable year ending on December 31, 2019, and report its determination to the governor, the secretary of administration, and the secretary of revenue. Finally, the bill includes in the definition of a "retailer engaged in business in this state" any retailer that has annual gross sales into this state in excess of \$100,000 or an annual number of separate sales transactions into this state of 200 or more.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

PRELIMINARY DRAFT - NOT READY FOR INTRODUCTION

1 **AN ACT** *to amend* 73.03 (71) and 77.51 (13g) (intro.); and *to create* 73.03 (71) (d)
2 and 77.51 (13gm) of the statutes; **relating to:** determining a reduction in
3 individual income tax rates on the basis of the collection of sales and use taxes
4 from out-of-state retailers.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Revenue must determine the amount of additional revenue collected from the state sales and use tax as a result of any federal law that expands the state's authority to collect sales and use taxes from out-of-state retailers. After DOR makes that determination, it must then determine how much the individual income tax rates may be reduced in the following taxable year in order to decrease individual income tax revenue by the amount of additional sales and use tax revenue. Finally, DOR must certify its determinations to the secretary of administration, to the governor, and to the legislature and specify that the new individual income tax rates will take effect in the following year. No further legislation is required to make this change.

The U.S. Supreme Court recently upheld a South Dakota law that required the collection of state sales and use taxes from any out-of-state seller that either conducts 200 or more transactions annually with consumers in the state or has annual sales in the state exceeding \$100,000. See, *South Dakota v. Wayfair, Inc.*, 585 U.S. ____ (2018). The *Wayfair* decision overturned longstanding precedent that prevented a state from collecting sales and use tax from out-of-state sellers that did not have a physical presence in the state. See, *Quill Corp. v. North Dakota*, 504 U.S. 298 (1992).

This bill clarifies that the recent U.S. Supreme Court decision that expands a state's authority to collect sales and use taxes from out-of-state retailers triggers the determinations mentioned above. The bill also provides that the new individual income tax rates based on the determinations would not take effect automatically in the year following DOR's certification, but, instead, the Department of Administration, in consultation with DOR, would determine the new tax rates to take effect for the taxable year ending on December 31, 2019, and report its determinations to the governor, the Joint Committee on Finance, and the Legislative Audit Bureau. LAB would then review the determinations and report its findings to JCF and the Joint Legislative Audit Committee. If LAB's review results in a re-determination of the rates, JCF would determine which rates apply to the taxable year ending on December 31, 2019, and report its determination to the governor, the secretary of administration, and the secretary of revenue. Finally, the bill includes in the definition of a "retailer engaged in business in this state" any retailer that has annual gross sales into this state in excess of \$100,000 or an annual number of separate sales transactions into this state of 200 or more.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.
